# Proving Distraction in Truck Accidents

To establish that the truck driver was distracted at the time of the accident, your lawyer will need to gather substantial evidence. Here are a few methods they might use:

## Collecting Evidence

- **Dash Camera Footage:** Many trucks are equipped with cameras that can provide critical evidence of the truck driver's actions just before the accident.
- **Cell Phone Records:** Phone records can decipher if the driver was texting or using a phone at the time of the incident.
- **Driver's Logbooks:** Examining logbooks can reveal whether the truck driver was overworked or fatigued, which can also contribute to distraction.
- **Eyewitness Testimonies:** Witness accounts can provide valuable information regarding the behavior of the truck driver leading up to the accident.
